

A scatter plot on a white background with a black border. The x-axis is labeled from -2 to 10 in increments of 2. The y-axis is labeled from -2 to 10 in increments of 2. The plot contains a large, dense cluster of blue points centered around (4, 4). There are approximately 10 red points scattered throughout the plot, mostly within the blue cluster but also at some distance from it. The blue points form a roughly circular shape with some internal structure and a few outliers. The red points are small, solid circles, and their positions are roughly: (3, 8), (4, 9), (5, 9), (6, 6), (7, 7), (8, 8), (9, 9), (10, 10), (11, 11), and (12, 12).
